**Embro 49A** (Medium Late)

Last year a new hybrid, Embro 33, was added to the Embro family. Embro 33 is the result of many years of careful research. Farmers who received only small samples in 1957 came back this past spring and switched their orders to Embro 33.

There is an Embro Hybrid to meet the needs of each of your customers.

We will be glad to send you complete information about our Embro Sales program.

## MARKET STRONGER ON MOST GRASS ITEMS

Due to adverse harvest weather and increased demand, most FARM and LAWN GRASSES have advanced in price from the levels of last spring. If your stocks are low, **Order Your needs Now.** With the widespread moisture situation you will have need of good grass seed stocks for Fall and Spring sowing.

NOTE LOWER PRICE of Kentucky Blue Grass. This much desired grass is in an enviable price and supply position this season. Recommend its use for **Pasture** and **Lawn** seeding. The Fall is the best time to sow Blue Grass, and this Fall is the perfect time to include Kentucky Blue Grass in mixtures for permanent pastures, a perfect time to make big use of Kentucky Blue Grass for sowing in lawns, either by itself, or in mixtures.
